THE SLEEPWALKER.

THERE ARE SAID TO BE FOUR KINDS OF SOMNAMBULISM.

Stories of Curious Things Done by Those Addicted to the Habit—The Boy Who Went Fishing—Cases of Sleepwalking Which Had Fatal Results.

According to scientists, there are four kinds of somnambulism:

1. Those who talk while sleeping, but do not walk or otherwise act.

2. Those who walk or otherwise act while sleeping, but do not talk.

3. Those who both act and talk while sleeping.

4. Those who act and talk and have the power of touch, sight and hearing, and it is alleged, in some instances, the power of taste and smell.

This fourth kind is never found except when induced by mesmeric or hypnotic influences.

It is of the third kind that there are most queer developments, independent of voluntary external influences. Often the somnambulist will rise in the night and walk through the various rooms of the house, go out on porches, and, in some cases, on steep roofs, where he would not dare go when awake.

Recently he will leave the house and walk through street or field and will return and go to bed without knowledge of anything having transpired.

The celebrated French physician, Bernheim, tells, in his work on "Suggestive Therapeutics," of a photographer of his acquaintance who rose in the night and finished the work on which he had been engaged during the previous day and was astonished on finding it finished when he went to work on the following morning.

Painters have been known to do superior work while asleep, and essays have been written and poems composed in the same way.

A young countryman related an incident occurring in his own family. His brother was a sleepwalker and also fond of fishing. For a number of nights in succession he would get up and go down to a long meadow to a creek and seize the root of a walnut tree growing on the bank and pull and with all his might and at the same time calling for the hired man to help him land a big fish. "I had heard," said his brother, "that it would break a sleepwalker of the habit to wake him suddenly when he was out rambling about, and I decided to try its efficacy on my brother. One night I followed him when he left the house. As I passed by the woodyard I picked up the ax, and when we got to the creek and he began tugging at his imaginary fish I cut the root and let him fall backward into about two feet of not very warm water. He came out a badly disorganized and somewhat frightened boy. I have never heard of him going fishing or otherwise walking in his sleep since his ducking."

Sometimes sleepwalkers go over places where they would not dare go when awake, and the fact that such things are frequently done with safety has led many to believe that they never hurt themselves. Ordinarily that may be true, but there is at least one authentic record of one death resulting in that way. The sleepwalker walked off a high portico and died from the fall.

One of the most singular and at the same time sad cases of sleepwalking occurred near Bakersville, N. C., a few years ago. A young man of the name of Garland had been a sleepwalker from childhood. His ramblings had always ended without harm to himself or others, and for that reason his wife usually paid little attention to his nocturnal eccentricities. But a now phase presented itself when he began to stay away longer at a time and always return "wringing wet," as the washerwomen say. His wife determined to follow him and explore the mystery. When he left his house, he followed the road to Tow river and then took a rough, narrow path leading up the hill.

He picked his way through the tangled hemlock and laurel and over stones and fallen trees and along the summits of precipitous cliffs. His wife kept in sight by means of the moonlight wavering through the trees. For more than a mile the sleeper trudged on until he came to a large poplar tree which had fallen with its topmost limbs far out in the river. He walked the log till he came to a large limb extending from it over the water; then he got down and began crawling out on the limb. The now thoroughly frightened wife screamed and called to him to wake up and come back. He was awakened by the cries, and, doubtless startled and confused by the situation, fell into the river and was drowned. He had been getting up in his sleep, going up the river, crawling out on that limb, jumping from there into the river, swimming to the bank and returning home unconscious of anything that passed.

These facts are well known to a number of people now in Washington.—Washington Star.

These Wonderful Americans in London.

The American dentist is credited with many wonderful devices, but a London correspondent of The British Medical Journal has discovered an especially new and offensive invention. He says: "Some Americans are introducing here the practice of inserting diamonds for vulgar display into the front teeth. It is surely enough that our sense of decency and propriety should be so often shocked by unsightly gold crowns and fillings without being further offended by this new atrocity. I believe it has only just started here, and this, therefore, is the time to denounce it and is my excuse for troubling you."—Medical Record.

Appraising Richard of England.

Cour de Lion's ransom, paid to Emperor Henry VI in 1193, was 150,000 marks, equal, said Hume, to \$300,000 of our present money, but this must be multiplied, and perhaps sevenfold, which would raise it to some \$2,000,000.—Saturday Review.

TUESDAY, AUGUST 21, 1894.

THE PARAMOUNT ISSUE

The Bi-Metallic League held a meeting in Washington last Friday which was attended by several Senators and Representatives in Congress and by delegates from various States. Senator Jones of Nevada, Bland of Missouri, Bryan of Nebraska, Pence and Bell of Colorado, Coffeen of Wyoming, Parsons of Texas and other Congressmen made speeches, in which they declared that the money question is the supreme, over-shadowing issue. Some of the speakers advocated unity of action among silver men. They should not divide their strength by supporting parties whose records show that they are opposed to free coinage. While there are silver men in the Republican and Democratic parties, they can accomplish no monetary reform through those party organizations because they are opposed to the remonetization of silver.

The League adopted an address to the people of the United States, in which is recounted the repeal of the silver purchase law and the establishment of the single gold standard. These acts have been followed by steadily increasing depression. Gold has increased in value, industries everywhere paralyzed, labor is unsteady and debtors bankrupt.

The League asserts that there is no hope of relief until the double standard is restored and silver and gold are coined on equal terms at the mints at the ratio of 16 to 1. Voters are therefore urged to make the financial question paramount to all other considerations on the election of State Legislatures, Congressmen and President.

The League recommends that a convention be held at some central point to perfect an organization to work for this end, and a committee was appointed to make arrangements for such a convention. If the convention is held and it is dominated by men who are wedded to the old parties not much good can be expected from it. Free coinage can be secured only through the united action of men who believe it to be of greater importance to the country than the success of Republicanism or Democracy. Those who desire silver restored to its historic position as a money metal must sever their connection with the Wall street twine. The declaration of Republicanism and Democrats in a few mining States that they are for free coinage is simply a move in the interest of the gold trust to keep the silver men divided. Only 10 per cent of the Republicans in the present Congress voted for free coinage, while about 46 per cent of the Democrats favored it. There is therefore four and a half times more probability of Democrats passing a free coinage bill than Republicans; but the experience of the last four years has proved to the people that neither will do it, in fact, as has been shown in the present Congress, Republicans rally around the goldbug standard of the President and vote to sustain his views.

TYRANNY AT PULLMAN.

The "Model" town of Pullman is owned by the Pullman Company. All the workmen employed live in houses rented from the company. Water, gas, fuel and supplies of all kinds are furnished the employees by the company. The czar of all the Russians does not exercise as much authority in his dominions as the Pullman Company does in the "Model" town. The evidence before the Commission appointed under an act of Congress to investigate the causes of the recent strike shows that employees had to submit to the greatest indignities under threats of being discharged if they sought redress in the courts. One of the women testified that she received a dollar a day for her labor and was charged \$17.50 per month rent for one of the company's houses. There was no way to avoid renting from the company as it owned all the houses and all the ground in Pullman, and taking advantage of that charged high rents.

But notwithstanding the ill-treatment to which the Pullman employees have been subjected they have returned to work because they cannot get employment elsewhere, though many of them are skilled mechanics. There is no alternative for them at present, but to work at Pullman or starve.

IDAHO DEMOCRATS.

The Idaho Democratic State Convention nominated E. A. Stevenson, a brother of the late Governor Stevenson of Nevada, for Governor; J. B. Thatcher for Lieutenant Governor; J. A. Bush for Treasurer, James Stoddard for Auditor, J. R. Hall for Secretary of State, W. T. Reeves for Attorney General, J. W. Faris for Superintendent of Public Instruction, John C. Elder for Supreme Judge, and J. M. Ballantine for Representative in Congress.

The platform demands free coinage at the ratio of 16 to 1, but in that respect it does not differ materially from the Republican State platform. Of course the platform makers knew that their respective parties are against free coinage, but the wits, you know, must deceive the people to get votes.

According to the Carson correspondent of the JOURNAL the lady who misrepresents Senator Stewart, in the editorial columns of the Carson News, is Hon. H. F. Bartine, to whom of course, the election of Senator Stewart two years ago cannot recall pleasing recollections.

MINERS' WAGES CUT.

The Tarsney Trial in Colorado a Farce.

A BIG TENNESSEE STEAL.

The Democracy Assembled in State Convention at San Francisco.

Debs Before the Investigation Commission.

CHICAGO, August 20.—Before the Strike Investigation Commission today, President Debs of the A. R. U., said there had been no disorder in Chicago until after the arrival of the federal troops. The presence of the troops inflamed the men. He said the various railroad brotherhoods were jealous of the A. R. U. and helped to defeat it. There is a movement on foot to form a grand railroad organization, and in a few days the proposition will be made to other railroad organizations whereby the officers of the A. R. U. and other unions shall resign with no possibility of election to office and the cause of the strike being thus removed an organization will be effected which shall include all railroad employees.

The California Wonder Meets his Match. PUEBLO, August 21.—Little Zeigler, the California wonder, met his match this afternoon at the L. A. V. circuit races under the auspices of the Rorer Wheel and Athletic Club, and met it twice. He lay low for the eighth event, the banner race of the day, as did Sanger and Johnson and some of the other swift men. Johnson in the mile took the lead at the start and held it in spite of all that Zeigler could do, and finished first by ten yards, Zeigler second and Sanger third. Time, 3:14.5.

Again Zeigler was forced to take the dust in the last event, an extra quarter mile open, when A. J. Brown set him too hot a pace and he had to take second. Time, 3:13.

The Trial at Woodland to Be Resumed. WOODLAND, Cal., August 20.—The trial of the alleged train wreckers will be resumed to-morrow. Attorney Gaddis, for the defense, says that the prisoners will probably not put any witnesses on the stand, but will renew the motion to dismiss the case. Mr. Gaddis says that as far as the Mediation Committee is concerned, the defense made its case on the cross-examination before Judge Fisher and that they relied upon a jury discharging them on the defense brought out during the preliminary examination.

Delegates Gathering. SAN FRANCISCO, August 20.—Four-fifths of the delegates to the Democratic State Convention are already on the ground and have been packed in hotel lobbies all day endeavoring to straighten out some semblance of a ticket. At midnight the delegates were obliged to confess that they are at sea. For none of the more important places can a nomination be predicted with anything like a reasonable certainty. There is no slate and no recognized boss.

Excitement Dying Out. WASHINGTON, August 20.—For fifteen or twenty minutes to day business was suspended in the Senate while the Sergeant-at-Arms went in search of a quorum. The Senate was eighteen short of a voting quorum, only 25 Senators having voted on a non-political motion thus showing that Congress is slowly disintegrating. The four supplemental tariff bills were all reported from the Finance Committee and sent to the calendar.

The Tarsney Trial a Farce. COLORADO CITY, August 20.—The Tarsney outrage cases ended in a farce here to-day. The District Attorney appeared before the Court and asked that the charges against the fifteen men accused of tarining and feathering Adjutant General Tarsney be dismissed, as the Grand Jury had failed to indict any of the defendants. The Court granted the motion and the people are disgusted with the whole affair.

Miners Wages Cut at Grass Valley. GRASS VALLEY, Cal., August 20.—Men employed at the North Star and Empire mines were notified this evening that wages would be cut. The men receiving \$3 were cut to \$2.50, \$2.50 men to \$2.25 and the latter to \$2. Groups of miners are discussing the situation on the street corners to-night. It is thought trouble will ensue if the reduced schedule is carried out.

A Tennessee Grand Jury's Discovery. MEMPHIS, Tenn., August 20.—The Grand Jury have discovered that the State has been defrauded out of \$2,000,000 during the past eight years. The jury discovered that nearly 600 saloons and a number of business firms had not paid taxes or licenses for eight years, and to-day 736 indictments were returned against delinquents.

Will Not Allow the Fight. ST. LOUIS, Mo., August 20.—The Mayor of St. Louis City says he will not allow the Corbett-Jackson fight to take place here as proposed.

No More Legislation This Session.

WASHINGTON, August 20.—The Republicans say there will be no more business of importance transacted at this session of Congress. They say the tariff debate as well as tariff legislation is at a close. Chairman Wilson says he does not look for any more legislation.

She Was Afraid of the Restriction of Emigration. MONETT, Mo., August 20.—Mrs. R. F. Morgan of this city this morning gave birth to four children, three girls and a boy, the combined weight is 16 pounds. The mother is a small woman and doing well.

Japs Contract for Guns. NEW YORK, August 20.—The Japanese Government has contracted with a firm here for one hundred thousand stands of guns and ammunition.

WEE-VOO-KAH IN DISGRACE. The Messiah Discourteous and Denounced as a False Prophet.

Johnson Sides, the great Indian peace maker, says that on the 15th instant a Pawnee Indian in the service of the Indian Bureau, arrived here on his way to Walker lake to see Jack Wilson, the Messiah, whose Indian name is Wee-Voo-Kah, though sometimes called Co-Hee-Jow. Johnson Sides accompanied the Pawnee to Mason valley where they met Wee-Voo-Kah, Johnson said to Wee-Voo-Kah: "This Indian came here long way to see you. He like to shake hands with you." Wee-Voo-Kah would not speak, neither would he shake hands with nor look at the stranger. The Pawnee put five silver dollars on Wee-Voo-Kah's hand, still he would not speak; Then he put five more silver dollars in his hand, but Wee-Voo-Kah kept silent. The Pawnee put the money on the ground, took out his peace pipe and passed it around. All smoked except Wee-Voo-Kah, who said "you Indians come from far away to kill me by witchcraft." He then mounted his pony and galloped away toward Pine Grove. The other Indians took the money and gave it back to the Pawnee, who said Wee-Voo-Kah was no good and not worth noticing, though it made him feel bad to be treated so by him. Johnson then told the Indians that they were not to blame for what Wee-Voo-Kah did and that they must treat their Pawnee friend with consideration. He advised them to pay no attention to Wee-Voo-Kah, who had been tormenting them for eight years, as he gives them no protection and they should not bother with him more.

The Pawnee told the whites that the Indians east of the Rocky Mountains had heard much of Wee-Voo-Kah. They thought he was a great man endowed with the spirit of prophecy, and at the request of the Indians the Government had commissioned him to visit Wee-Voo-Kah. He was now satisfied that he was a false prophet and did not amount to anything, and he would so tell his people when he returned home.

County Commissioners. The Board of Commissioners met as a Board of town Commissioners; George Alt, Chairman, W. P. McLoughlin, and O. Evans, clerk, were present.

The following business was transacted: The petition of F. Kolster, et al., to open an alley on certain lots in the town of Reno was laid over.

The following bills were examined and ordered paid: H. P. Brown, Chief of Police, \$97.50; Reno M. & L. Co., lumber, \$25.15; R. Nash, watchman, \$18.00; Fire Department, \$74.50.

A complaint was made to the Board that the electric lights on the south side of the river are insufficient and not lighted at proper times, in fact do not furnish the light that the company asks pay for.

As a Board of County Commissioners the following business was transacted:

It was ordered that the District Attorney take measures to ascertain whether anything can be done to furnish the town of Reno with purer water than is now being furnished by the Reno Water Company, and report his investigation to the Board.

Relief was granted R. J. Barnett to the amount of \$15. The following order was made: Ordered that the County Treasurer, County Assessor and County Recorder and Auditor are respectively authorized to procure such books, papers and other supplies necessary for the efficient management of such offices, subject to the action of the Board as to the prices shown in the claims presented by the parties supplying the articles furnished, such claims to be acted on in the same manner as other claims against the county.

The Secretary of the People's party Club desires the JOURNAL to state for the information of our contemporary that he was not out of town yesterday and does not expect to be away to-day.

Mrs. McCone and her daughter Miss Dollie drove down from Virginia yesterday and met Miss Enright of San Francisco, who arrived yesterday morning. The party returned home in the afternoon.

According to the Lyon County Times, the delegates from that county to the silver convention will present the name of W. J. Westerfield for State Treasurer. Lyon county is Mr. Westerfield's old home and all the delegates are for him.

Rev. T. Johns of Mason Valley, Rev. W. N. Bott of Colville, Rev. T. Peck of Bodie, Rev. W. J. Mitchell of Carson and Rev. G. C. King of Fall River, are here on their way to the M. E. Conference at Quincy, Cal. Rev. F. R. Winslow of Virginia City, is expected to arrive from Europe this week in time to attend the Conference.

The following named persons were elected delegates from Esmeralda County to the Silver State Convention at Carson. Robert Stewart, George Woodruff, J. P. Klein, W. J. Douglas, Ed Brown, D. Holland, J. A. Shreves, S. L. McNaughton, S. R. Wasson, S. M. Brookes and H. H. Robinson.

Emigrants from California.

George Hicks and Nathan Adams and their families arrived here yesterday, on their way from Tulare, California, to Walla Walla, Washington. They have three wagons and two bugies and travel independent of railroad. No doubt if some of our large land owners would offer these people inducements they would settle in Nevada.

A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'"

"In 1888, my affianced wife was nearly bald, and we attributed it to the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'"

Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarum, Bastrop, Tex.
